

## 2013 Moscato

This wine is a blend of grapes from several different vineyards all of which produce the Muscat Canelli grape. A cool ferment is used to keep the floral notes intact as well as the fruit flavors of this grape. When the wine is still sweet, we halt fermentation to keep a high residual sugar, as well as to maintain the freshness of floral and fruit components.

Notes of fresh rose and jasmine, with a plush nose of sweet fruit, will greet you on first examination of this wine. The front note on the palate will introduce caramelized sugar and hints of honeyed apricot with melon following. The back palate finishes with a touch of tropical fruit and citric hints wrapped in intense fruit.

### VARIETAL COMPOSITION

Muscat Canelli
