

2014 Resv Cabernet Sauvignon Canada Family Vineyard

One of our best single vineyard lots, Canada Family Vineyards produces some of the most concentrated varietal Cabernet Sauvignon in Texas. The 2014 harvest saw great cluster development with small berries and deep purple skin color. The nose of raspberry blossoms, dark coffee and leather comes across as soon as the wine hits the glass, quickly developing the signature deep chocolate and mild pepper that Cabernet Sauvignon is known to display. Following is a well developed front palate of red fruit and brown spice hinting at all-spice. The mid-palate is full, with well structured tannins and rich fruit. It finishes with a lingering coffee/earthy note – a classic example of Cabernet.

VARIETAL COMPOSITION

Cabernet Sauvignon
